character stream

Lexical Analyzer (Scanner)

Syntax Analyzer (Parser)

Semantic Analyzer

Symbol Table

Intermediate Code Generator

Machine-Independent Code Optimizer

Code Generator

Machine-Dependent Code Optimizer

target-machine code

Project Outline

character stream

µGo program

Lexical Analyzer (Scanner) — HW1

Syntax Analyzer (Parser)

Semantic Analyzer — HW2

Symbol Table

Intermediate Code Generator

Machine-Independent Code Optimizer

Code Generator — HW3

Machine-Dependent Code Optimizer

target-machine code

Jasmin Instructions

"We don't do that here."

Features of μGo Language

- No semicolons (;) at the end of a line of code.
- No parentheses for **if** and **for** statements.
- C's **while** is spelled **for** in μGo.
- C's int/float is spelled **int32**/**float32** in μGo.
- μGo is a *static type* and *strong type* language.

```
var x int32 = 0

if x == 1 {
    println("Hello world")
} else {
    println("Hello, mother father")
}
```
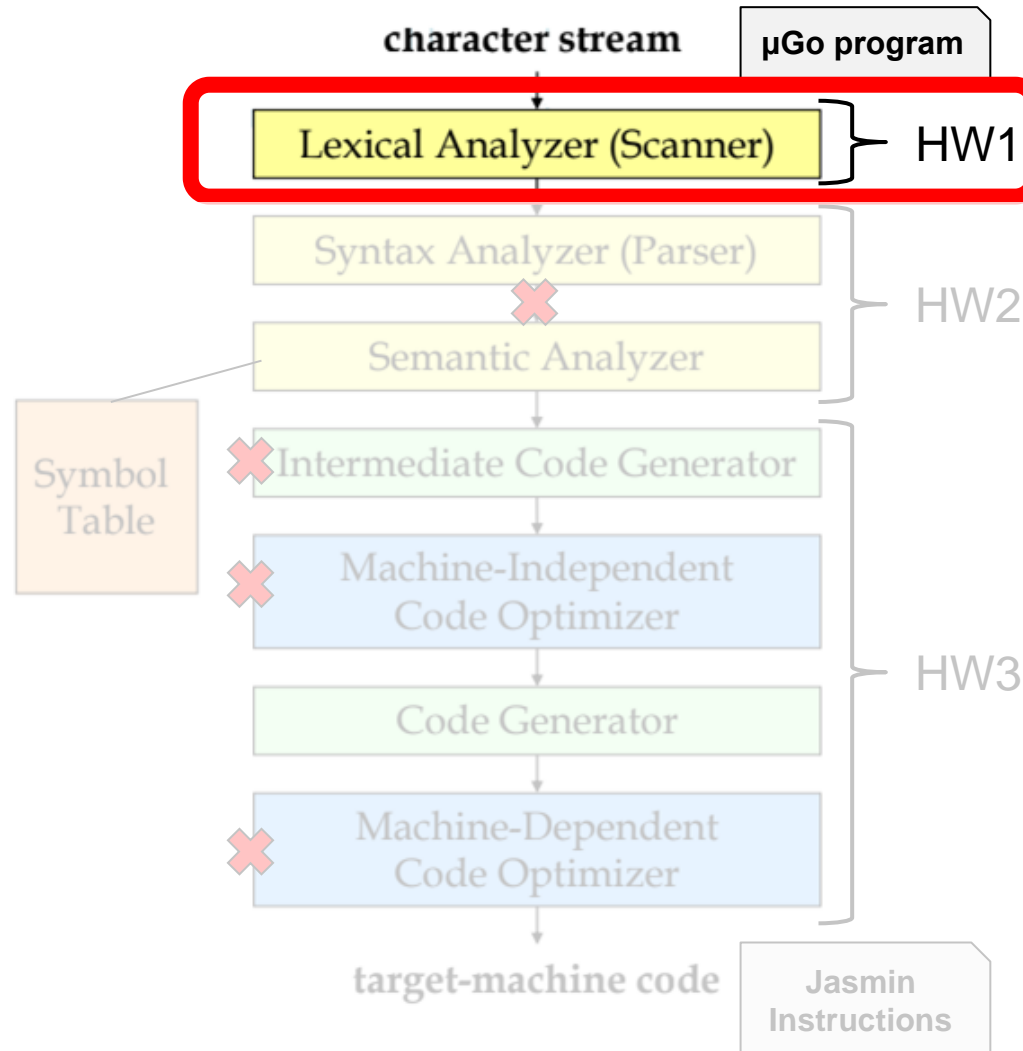

```
var x int32 = 10

for x > 0 {
    println("OuO")
    x--
}
```
Project Outline

character stream   µGo program

Syntax Analyzer (Parser)
Semantic Analyzer — HW2

Symbol Table   Intermediate Code Generator

Machine-Independent Code Optimizer

Code Generator — HW3

Machine-Dependent Code Optimizer

target-machine code   Jasmin Instructions

```
var a int32 = 3
```

```
var      VAR
a        IDENT
int32    INT
=        ASSIGN
3        INT_LIT
```
Assignment Requirements

- Each test case is 10pt and the total score is 110pt.
- You can judge your code locally with judger.

```
~ judge
local-judge: v2.7.1
========================+========
             Sample | Accept
------------------------+--------
    in01_arithmetic | ✔
========================+========
    in02_precedence | ✔
========================+========
         in03_scope | ✔
========================+========
    in04_assignment | ✔
========================+========
    in05_conversion | ✔
========================+========
           in06_if | ✔
========================+========
          in07_for | ✔
========================+========
    in08_type_error | ✔
========================+========
in09_variable_error | ✔
========================+========
     in10_function | ✔
========================+========
       in11_switch | ✔
========================+========
Correct/Total problems: 11/11
Obtained/Total scores:  110/110
```

```
// "Hard Coding" will get 0pt.
main() {
    result = read(answer_file);
    print(result);
}
```

March 25, 2022

Get judger

- **pip3 install local-judge**

Environment Setup

- For Linux
  - Ubuntu 18.04 LTS

- For Windows (VirtualBox)
  - You may like to install VirtualBox to emulate the Linux environment, or
  - WLS2

- Install dependencies :
  - **$ sudo apt install flex bison git python3 python3-pip**

Submission

- Upload your homework to Moodle.
- The expected arrangement of your codes:
  - Only **.zip** types of compression are allowed.
 - The directory should be organized as:

```
Compiler_StudentID_HW1.zip/
└── Compiler_StudentID_HW1/
        ├── compiler_hw1.l
        └── Makefile
```

 - You will lose 10pt if your programs were uploaded in incorrect format!!!
